

ParkerWorks Inc

Airport Capital Program & Construction Support

Capability Statement

Core Competencies

- **Capital Program & Project Coordination** – Align stakeholders, milestones, approvals, and interdependencies across complex, multi-organization programs
- **Project Controls & Execution Support** – Maintain action, risk, issue, and deliverable registers; coordinate schedule inputs and executive status reporting
- **Construction Program Interface Coordination** – Facilitate coordination among primes, subcontractors, owner representatives, technology teams, and operational stakeholders
- **Operational Readiness & Transition Support** – Coordinate readiness plans, implementation tracking, stakeholder handoffs, and facility/system transition activities
- **Digital Modernization & Reporting Automation** – Improve project information workflows through dashboards, automation, AI-assisted reporting, and decision support
- **Enterprise Coordination & Operational Execution** – Apply CLOM™ to connect organizations, workflows, milestones, dependencies, approvals, and decisions

Differentiators/ Why ParkerWorks

- **Proprietary CLOM™** — ParkerWorks' Coordination Layer Operating Model integrates stakeholders, workflows, dependencies, and decisions to strengthen accountability and help reduce coordination-related delays
- **Focused Prime-Contractor Support** – Defined work packages for coordination, project management support, and reporting aligned to the prime's execution needs
- **Enterprise Leadership Experience** – Founder's experience includes roles as a consulting senior manager and senior systems engineer

Relevant Founder Experience

Experience gained in prior employment; not ParkerWorks corporate past performance

- **National Reconnaissance Office (NRO)** – As master schedule lead, aligned 38 communications-ready work package dependencies and 26 major milestones with satellite launches
- **Pentagon Joint Staff (C4 Cyber)** - Advanced the interests of 11 Combatant Commands in Joint All-Domain Command & Control transformation & modernization
- **Central Intelligence Agency (CIA)** – Led secure financial application development using Agile practices to deliver a platform and streamline enterprise services for mission partners
- **National Security Agency (NSA)** - Established system lifecycle processes which were adopted as organizational benchmarks.
